Ayer's CATHARTIO

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon to serious illness. Some fit of sickness is creeping upon to serious illness. Some fit of sickness is creeping upon to serious illness. Some fit of sickness is creeping upon to serious illness. Some fit of sickness is creeping upon to serious illness. Some fit of a time for the product of the signature of the blood, and let the fluids move on unr. I tructed in health again. Aley simulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. While in this condition, oppressed by directly they restore the natural action of the system, and with it the bouyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deepsented and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, and by the content of the system of the service of the

From a Forwarding Merchant of St. Louis, Feb 4,
1856.
Dr. Aver. Your Fills are the paragon of all that
is great in medicine. They have cared my little
daughter of ulcerous sores upon her hands and feet
that had proved incurable for years. Her mother
has been long grievously afflicted with blotches and
pimples on her skin and in her hair. After our
child was cured, she also tried your Fills, and they
have cured her.

ASA MORGRIDGE.

have cured her.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.
Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowles, which makes them invaluable to us in the daily treatment of disease. From Dr. Edward Boyd, Baltimore.

Dr. Art. Bito. Aver: 1 cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on that effectial cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

DR. J. C. AYER TITTSBURG, Pa., May I, 1885, DR. J. C. AYER Sir: I have been repeatedly gured of the worst headache anybody can have by a lose or two of your Pills. It seems to arise from a out stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.

Bilious Disorders - Liver Complaints.

Billous Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pillsadmirably adapted to their purpose as an aperient, but I find their benedicial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I am mention. I sincerely rejoice that we have at legith a purgative which is worthy the confidence of the 'tolession and the people.

Deparatement of the International Street Internation, Washington, D.C. 7th Feb., 1855.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hestitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for demagements of that organifacet, in her seldom found a case of bilious disease so the self-consequently they are an admirable remedy for demagements of that organifacet, in her seldom found a case of bilious disease so the self-consequently they are an admirable remedy for demagements of that organifacet, and have seldom found a case of bilious diseases to the self-consequently they are the foundation of the Marine Hoppital.

Physician of the Marine Hoppital.

Dysentery, Diarrhea, Relax, Worms. From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best speriests I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrheat. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Byspepsin, Empurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church,
Boston.

Dr. Ayer: I have used your Fills with extraordinary success in my family and among those I am
called to visit in distress. To regulate the organs of
digestion and purify the blood, they are the very
best remedy I have ever known, and I can conddently recommend them to my friends.

Yours, J. V. HIMES.

From Dr. J. P. Vaughn, Montreal, Canada,
Too much cannot be said of your Pills for the
cure of costiceness. If others of our fraternity have
found them as efficacious as I have, they should join
me in proclaiming it, for the benefit of the multitudes
who suffer from that complaint, which, although
ad enough in itself, is the progenitor of others that
are worse. I believe costiceness to originate in the
liver, but your Pills affect that organ and cure the
disease. From Mrs. E. Stuart, Physician and Midwife,

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel vorms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis.

Who Will Commence it? A correspondent asks this question, as if the power of retrenchment rested with the people; were the question, who ought to commence it, the answer would be simple enough. We have no representative institutions and it rests solely with the Governor, acting if it so please him under the advice of his Executive Council, to commence, carry out and complete those retrenchments in the public service which the people demand. Our correspondent seems to think that some reference to the Home Government is necessary before our expenses can be reduced; if he had perused such of the dispatches from the Colonial Office to the Govern nor, since the Union, as have been published, he would be aware that the Governor has not only the power, but has been positively instructed to make retrenchments. We confess, we are unable to extract any clear meaning from our orrespondent's jumble of questions, "who will call a public meeting?" "who will attend?" "who will refuse to sign?" We presume he expects for answers to the questions, the three words, anybody, everybody, nobody; whether he would reverse the position of the two last words or not, we cannot say. If he sincerely desires action, we cannot understand why he should cavil at us for harping upon one theme; if the necessity for retrenchment be admitted, then it cannot surely be the duty of those whose interests are identical with those of the people of this Colony, to remain silent. Our correspondent evidently does not see that he is in fact pulling the Government wires, although his intention may be only to warn us from making the evils of our present system too patent to the world; this has always been the cry of those who really obstruct progress. There is a want of courage about those who think too much of the consequences of speaking out, which we cannot admire, their expediency too often leads them to mistake deception for caution. There can be no doubt that, after making allowances for particular influences which may affect the views of individuals, all who have their living to get in this Colony have the same end in view, the general prosperity of the country, but it is hardly in human nature for any man or body of men to see that his or their fall from power or removal from office, could by any possibility be a public advantage, and we can hardly expect any of the officials of this Colony to arge upon the Governor measures which would of necessity lead to their extinction as members of the Government. The supporters of the present system do not point to any vigorous policy parsued by the Government, but they say, let it have a fair trial it will improve, and some of those who see and acknowledge the weakness of the Government, are blind enough to confound it with weakness in the Colony itself, and are, like timorous garden-

ers, who fearful of injuring the tree

by too much pruning, allow the strag-

gling useless branches, to exhanst the

sap which is required to produce the

fruit. Let our cerrespondent, by all

means, take the initative; we are most

desirous of seeing prompt action

taken, but pending action, we cannot

remain silent. Is it a time to keep

silent when a vast amount of damage

has been done to Colonial property,

which might have been to some con-

siderable extent averted by foresight

and timely expenditure of a compara-

tively trifling sum by the Land and

Works department? We do not say

that the Chief Commissioner is to

only public works of real consequence

that we have in the Colony-the

bridges, without wnich every settle-

ment will be isolated from communia

cation with any market for produce-

are rapidly becoming useless and

there is no money to renew them. Do

we learn of bridges becoming useless

or being destroyed very frequently, when they are in the hands of contractors, who are under bonds to keep them in repair for a certain number of years? We would ask the Chief Commissioner to give the Colony the benefit of his experience in such matters; perhaps he could say whether it is the fact, and explain why private property of such a class is better cared for than that belonging to the Colony.

WHEN you are depressed by the gaunt, sickly feeling of a disordered system, which needs to be cleansed and stimulated into healthy action, take a dose or two of AYER's Pills and see how quick you can be restored for a shilling.

A NEW POLITICAL PARTY .-- We are informs

ed by a gentleman well posted in the political movements of the Colony, that a new party, embracing a large portion of the intelligence and wealth of the city, has recently been formed. The policy adopted by this party is not without merit, and we have little doubt, that when officially announced, of its receiving support in Victoria and the Colony in general. The principal feature of this new policy, is to advocate Confederation between the Mainland and Canada, but to leave Vancouver Island out, so that Victoria may, if she chooses, become again a Free Port A general conviction prevails amongst all classes that Confederation, as an Imperial policy, is a certain event at no distant day : but some appear to think that a free port is better for our local interests than the consum mation of the great scheme of the age. At a more distant day, when communication across our territory to Canada will be expeditions, no doubt, a free port in Victoria would be sound policy. With a line of vessels di-New York, to China, Japan, and Australia, she would then gain an overwhelming importance on the coast; and as this route would be nearly 1200 miles nearer from those countries to New York, than that shortly to be completed through San Francisco, it is not altogether visionary to say the two cities would soon become rivals. At the present time, from the complication such a policy would give the present negotiations, we hardly-think it advisable, or likely to be to be submitted to the approaching Conven-

WHO IS RESPONSIBLE. - Yesterday the dead body of an Indian was found in the neighborhood of Mr Finlayson's house, but in such a state of decomposition that it is utterly unfit to approach. The hody is wrapt up in a blanket and Indian mat, tied round with a cord, leaving the feet exposed. It is supposed to be one of the Indians who died lately and carried out and left where found, by some of the deceased striends. Another Indian woman is said to be lying dead on Fisguard street, from starvation, and it not attended to will perhaps be carried out to the subnrbs and left to decompose like the other. The thing is sickening and disgraceful.

tion at Yale.

COUNT CHORINSKI.-The fate of this unfortunate man is determined at last. It will be recollected that he and the Baroness Ebergenyi, as previously stated in this paper, poisoned the Countess Chorinski under peculiarly aggravated circumstances. He was sentenced, at Munich, on 27th June, to 30 years' imprisonment in a fortress, and to exile afterwards if he survived. The Baroness received, a few weeks before the Count, an equally severe sentence. The case excited great interest in Europe from the distinguished rank and great wealth of their respective families.

The steamer New World, running for some time between the Sound and this port has got into a lawsuit at San Francisco. I appears when she was sold to the Oregon Steamship Navigation Co, it was agreed she was not to run in California waters again for ten years. The suit is to try whether the present owners are not bound by the original contract made with the Company who first purchased the vessel at San Fran.

Mr Leander Doane, formerly of this city, and who was unfortunately subjected to an amputation of the leg above the knee, has had to undergo a second operation, similar, by having the stump removed from the hip soint. This was considered necessary to save life, and by last date he was recovering. The painful operation was executed in Boston,

Opposition. Lively times may soon be anticipated on the Sound. In addition t the G S Wright, which in future will run from Portland to Olympia, calling as usual at this port, the W G Hunt is expected to commence opposition to the Eliza Anderson, next week. Three steamers running on that line will hurt somebody, though it will be gain to Victoria.

THE steamer Enterprise left for New Westminster yesterday. She took up 110 tons of freight, the greater portion of which was for Strauss & Co. She also took up a large Express, and a number of passengers, Amongst the latter were Mrs Captain Cooper and family, Mr Oppenheimer, Mr Strauss, and others connected with the Mainland business.

FIRE. - About half past eight last night the fire alarm was sounded; a strong glare was seen between Cormorant and Fisguard streets, which lighted up the neighborhood in an instant, and as quickly disappeared; but how it came or whither it went, so strangely, no one could discover. The firemen, as usual, were out at the tap of the bell.

WHALING .- Capt Roys of the whaling expedition was to leave town this morning in the Emma with eighteen additional men From the experience attained in the early part of the season, and the improvements recently made in the rocket, the Captain appears to have no doubt of final success. The party will be out about two months.

VICTORIA V. I., Sept. 1st, 1868. EDITOR COLONIST :- I entirely differ from your correspondent John Clayton in thinking the Agricultural Society have treated Horticulture with a greater amount of liberality than has been observed towards her sister science agriculture. On the contrary horticulture seems to have been treated very scurvily, it seems to have had no representative in the Committee when arranging their prize list, or surely the usual course adopted by societies of this kind would have been followed, namely, that of offering prizes for the best specimens of the various vegetables in common use, as well also for the best collections. The amount of the prize need not have been more than one and a half to one dollar, by this course a spirit of friendly emulation would have been engendered among amateurs who cultivate a few rods of ground in their leisure hours, and who would think more of the honour of carrying off the first prize for a brace of cabbages, a brace of couliflowers, &c., than he would of the intrinsic money value of the premium. The prizes offered for fruits specification of the poultry list which is open to considerable criticism, and calculated to puzzle the intending exhibitor I will leave to the tender mercies of the "Fancier," and just remark by way of conclusion that I cannot see any rules hald down either for the guidance of the intending exhibitor or the judge. I infer therefore the former are left to the good

OBSERVER

GROWING REPUTATION.—If the entire correspondence from South America, Central America and the West Indies, received by Messrs. Hostetter & Smith, during the last twelve months, were published at length, it would probably be considered one of the most extraordinary collections of approbatory testi-mony on record. The letters, written in every variety of style, and emanating from individu-als of almost every class, are, neverthelss, all f the same tenor. Physicians, priests, mer chants, planters, military officers, artisans, hawyers, &c., tell one story, admitting, without reserve or qualification, that the tonics theretofore in use in those regious have been generally and justly superseded by Hostetterk's

BITTERS.

The confidence manifested by the people of these countries might be fairly called enthusiastic. Yet these are not the only tokens of the growing population of

HOSTETTER'S STOMACH BITTERS The foreign orders for the article from Europe

Australia, New Zealand, China, Japan, East Indies, Cape of Good Hope, Sandwich Islands, &c., have been heavier than at any former period.

As an antidote to malaria, a stomachic and

general invigorant they all testify to its remakable efficacy.

Holloway's Ointment and Pills—Common sense, ever the best of all learning, becomes invaluable when its pratice will renovate broken health and reinstate soundness, strength, and vigour. Summer is the senson for removing coughs, shortness of breath, wheezing, asthma, and all pulmonary disease inflicted on the delicate and careless by our rigorous winters, and Holloway's remedies are the means of effecting a happy transition from danger to safety. After the harassed chest has been fomented with seawater, or weak brine, and dried, this Ointment should be well rubbed into the skin, both in front and behind, between the blade-bones. Holloway's Pills should be taken to correct any functional irregularity; they will make each organ conform to health's requirements.

EDITOR COLONIST-This is a question that this community will soon be called upon to reply to, and it will be well for us, before we give our decided answer, not to make such stupid mistakes as we have hitherto in such matters; but brush our eyebrows well up and mind what we are about. Of one thing let us impress our minds, that objectionable as our present position is, if we are determined, and set about it in the right way, we can effect radical reforms and changes without going in for Confederation. To say then that Confederation is the only door open for a change in our circumstances, and that if disatisfied we must adopt Confederation or remain as we are, is a delusion, and a trick of the enemy to deceive us. The British Government have always acceded to the changes we have asked for, and why should they not? What on earth object can the British Government have in fostering upon us a state of things prejudicial to our interests, and stupid, and blundering as we have been in our affairs allowing ourselves to be played ducks and drakes' with, by professional politicians. It is still not too late to reckon ourselves up, and ask, can we not put forth any other programme as a remedy for our present troubles than that of Confederation? I say yes, to be sure we can; let select and qualified members of this community form themselves into a committee for that purpose, increasing in number as the work progresses; and if those gentlemen now on their way to Yale had gone up with an open question like this, and not with a foregone oonelusion in favor of Confederation, I would cordially have favored the movement; but to and Ladder Co, it is said, will shortly have start as they do, fettered and bound to Con-

paragraph in their paper: 'to device means to secure Responsible Government for this Colony and to take such other steps as the convention may deem proper to obtain redress of the numerous grievances under which this country now suffers,' causes me to hold this affair in the most thorough contempt. ERRATA -In vesterday's article-line 29, read-the principal of the Canadian loan | Now I have been trying to understand what good Confederation will do for us, and as yet Leonant discover it, it same we was We sounding hoss and tickling cymbal.' In the first place, it will clog us with two Moody's Mill, Burrard Iulet, on Monday or Governments, federal and local, both endowed with powers of taxation, and of which both will be sure to avail themselves. be under no doubt about that. Yes, this little community with its handful of a population, will have two governments -we shall have a government at Ottawa and one at Victoria. To the government at Ottawa we shall have the privilege of sending five representatives, who will do us the honor of going there to represent our interests for the triffing consideration of being paid their travelling expenses and payment for their services; and what will these five gentlemen have to do when they get there. With the exception of the tariff and one or two other matters, and upon which their opinion will have to give way before a Dominional policy, almost every other matter will be questions relating to Canada Proper, in which we in this part of the world will have the most remote possible interest, and yet for this, this little community, whose revenue comes in by bits and quarters, will have to pay some thousands of dollars to support these gentlemen in mock dignity, every farthing of which is wanted for local improvements, and then as to our own local Government what power will that have? Why the very soul will be taken out of it by the Federal Government. The character of our local Government and its functions will be merely that of an enlarged municipality, to pass acts for the eradication of the thistle, 'the removal of Indians when they get the analyspea," or such small gear as this the country will enjoy the luxury of paying considerable. As to Confederation giving us Responsible Government and Representative Institutions, this by experience will be found the veriest claptrap imaginable; be assured that anything that our handful of representatives could say in the crowded house at Ottawa will have very small weight, even if having all the imprassioned eloquence of the Hon Amor de

Cosmos to support it, and in the appointment of the principal officers of Government you may rest satisfied they will have a dominional flavor about them, whether you like it or not. Men of Victoria, you are flatteringly told, that by the advantage of Confederation you will be in full possession of all your political rights and privileges. I contend, that by it, you will barter them all away, and that for ever; and that in a Confederate Government you will have about as much influence as the man who holds a few shares in a gas or coal company. Let not the circumstance of the British Government, or the Dominional Government or even the Hon Amor DeCosmos, being in favor of immediate Confederation, influence you, it might suit these parties well, and the you, it might suit these parties well, and the last mentioned party very well, and still not be good for us; and yet that is what we have to do with—that is the question for us to consider. I contend all the advantages proceeding from inexpensive and efficient gov-ernment, we can have without going to Con-deration or Canada for it; that it is to our interest to draw ourselves closer in connec-tion with the British Government; that they have the power and disposition to serve us, and that for us to say we mid go to Canada

for these things because we cannot get them from Eugland, when we never asked nor ever sketched out to the British Government what we really did want, is at once a mock-TORONTO, Aug 30-Terrific fires again have what we really did want, is at once a mock-ery and an insult. Finally, I desire to re-mind you, that those gentlemen who are off in full cry for Confederation to Yale, are seeking by political agitation, to bring it so to bear upon our representatives, that they may reverse their recent unfavorable decision for immediate. Confederation, this

broken out in the woods on the Northern Railway. On Saturday night the station at Summidale caught fire and in a short time the entire village embracing twenty or thirty houses was in ashes. The inhabitants were taken to Lowell and cared for. The railway track has been destroyed for several miles. Other villages are in imminent danger. MONTREAL, Aug 31 .- A picnic is advertised

for immediate Confederation; this is the stumbling block now in their way, and so long as it remains, they are powerless, for the British Government will never force this be held on Tuesday, for the benefit of measure down our throats against our will, but once that stumbling block removed, we fall into the arms of Confederation and Whelan and other prisoners at Ottawa. A proclamation was posted urging all loyal citizene to muster and prevent this display. nothing can save us. Of one thing in the meantime I am satisfied, that the intelligence B Devlin, a leading Irishman, who has the meantime I am satisfied that the address the decision of the Legislative Council against immediate Confederation, and that if we are reputation of being a Fenian, denounces the picnic, and the Fenians denounce Devlin as immediate Confederation, and true to ourselves we shall sustain it.

Gold Hill, Aug. 25—A dispute occurred last evening about half-past ten o'clock, between A. F. Holly, a watchman at the Overman mine, and Wm. B. Housley, resulting in the death of Housey and the supposed mortally wounding last night at a meeting of Irish Republicans of Richard Cook, by shots from Holly. Housley and Cook were Cornishmen, employed in the Overman mine; the former leaves a family. Cook was stand-ing by and took no active part in the dispute. Neither of the men shot, armed, and the affair seems to have been almost entirely unprovoked murder. Holly escaped and has not yet been

> Gold Hill, Aug. 25—Later.—The body of A. F. Holly, the man who shot Housley and Cook last night, was found at about ten o'clock this morning near the summit of a high hill, to the west of the town, lying among the rocks, he hav-ing shot himself through the head.
